[WHAT HAPPENS UPON YOUR ARRIVAL IN BREST]

>>> CULTURE SHOCK

Arriving in a new country is a very exciting experience. Although you got ready by making enquiries about French culture, you might feel a bit confused or disoriented. Do not worry, it is only temporary! Be patient, you can cope with culture shock by keeping active, doing community activities, and working on your English & French skills – It is easier to mingle when you can understand the common language that is used. Bear in mind that there are several other students who cope with the same situation so feel free to introduce yourself to other students. The student associations are here to help you and make you feel comfortable during your stay, feel free to contact them! If your homesickness is persistent, a social counsellor is available on the campus. Do not hesitate to go and see her.

>>> HEALTH INSURANCE

Students of the EEA (European Economic Area) are covered by the social security of their own country – make sure you own the European Health Insurance Card. Other students must register for the French student social security in order to be reimbursed for their health costs.

NB: Students aged under 28 years old have to choose between LMDE & SMEBA (Student social security centres) while students aged 28 & over must take out CPAM – Caisse Primaire d'Assurance Maladie.

>>> HOUSING ALLOWANCE (CAF)

Once you have found accommodation, have been enrolled in the Social security scheme and have opened a bank account, you can apply for "CAF". Every student can apply for housing benefit based on their personal resources and the rent they pay. You can apply online.

>>> OFII PROCESS: MEDICAL VISIT & FORMS

The OFII is the "Office Français de l'Immigration et de l'Intégration". It takes part in the legal procedures required for the admission of legal foreigners into France.

If your stay in France lasts more than three months, you must undergo a mandatory medical examination conducted by the OFII. You will receive a letter with an appointment for this free medical check-up and for an interview with an OFII agent in order to validate your visa. You will need to buy an excise stamps for the amount of €58, you can get it online.

NB: Any change of address must be notified to the OFII. If you have any queries about the OFII process when you are in Brest, you can ask for information to the ACOR Office.

>> OPENING A BANK ACCOUNT

We strongly advise you to open an account as students who take out French health insurance and who are entitled to housing benefit need to have a bank account to be reimbursed. When opening a bank account in France, make sure you did not forget:

- > your identity documents
- > proof of address
- > a small amount of money

REMEMBER

only close your bank account after making sure you have received your last payments. To close a bank account, simply send an account closure letter to your bank.

>>> RIB BANK ACCOUNT REFERENCE NUMBERS

You will be often asked to provide a RIB: "Relevé d'Identité Bancaire". This is a document given by your bank which gives all the details of your bank account (Identification Banking Account Number and Bank Identification Code). This will be needed each time you need to carry out a bank transfer.
